2. U-shaped bottom frame, more stable when loading
3. Easy to fold, saving storage space
4. Anti-collision design at the bottom, preventing goods from being damaged
5. High-quality casters, noiseless, labor-saving, and durable
6. Zinc coated surface, beautiful and durable.

## Specification

Mode	External Dimensions W×D×H (mm)	Internal Dimensions W×D×H (mm)	Weight (kg)	Load (kg)	Capacity (m <sup>3</sup> )	Surface treatment	Structural form	Packing Qty	
								40GP	20GP
DT-RU01	720×810×1650	660×780×1400	49	500	0.72	Galvanizing	with partition plate	150	69

Casters: 5", PU wheel, 2 swivel casters and 2 swivel casters with brake

# Euro-style Mesh Roll Cage

Turning part

top lid

gate latch

reinforcement part for caster mounting plate

collapsibel when no loading

nestable storage when no loading

## Application

Widely used in supermarket ,tobacco and other industries for storage, transport and distributing .

## Features

1. European style structure, meeting different use requirements
2. Mesh design in all four sides and the top cover, anti-theft, making cargo transportation safer
3. U-shaped bottom frame, more stable
4. Integrated mounting plate, high structural strength
5. Galvanized surface, beautiful and durable
6. Folded and nested for storage, easy to operate

## Specification

Mode	External Dimensions W×D×H (mm)	Internal Dimensions W×D×H (mm)	Weight (kg)	Load (kg)	Capacity (m <sup>3</sup> )	Surface treatment	Structural form	Packing Qty	
								40GP	20GP
DT-RUM01	725×810×1650	660×750×1350	61	500	0.67	Galvanizing	with partition plate	141	63

Casters: 5" , PU wheel, 2 swivel casters and 2 swivel casters with brake .
